

# Flexysafe – Introduction

Flexysafe computer safes protect your company's laptop computers and data out in the field, in the office or when working from home.

## Flexysafe for Vehicles

Vehicle based Flexysafe designs are independently tested to destruction by Sold Secure. Approved by the UK police, Flexysafe offers real protection from thieves unlike cheaply made alternatives – or deterrent enclosures.

## Flexysafe for Buildings

Flexysafe for buildings includes models for single or multiple laptop storage.

## Flexysafe Custom Specification

All products in the Flexysafe range are made in our own factory – so we can vary any aspect of the designs – whether it is size or specification to suit your exact requirements.

# Frequently Asked Questions about Flexysafe Vehicle Safes

### **Q Why choose Flexysafe?**

- A
1. Products are approved by UK Police.
  2. Proven in use by many of the UK's blue chip companies.
  3. Manufactured precisely to your company's requirements.
  4. A complete range of laptop safes for vehicles and buildings.

### **Q Our fleet vehicles are leased, so we can't drill holes in them – can we still use Flexysafe?**

- A Flexysafe Pro and Fleet models secure without damaging the vehicle in any way – using a UK Police approved method.

### **Q How much do Flexysafe vehicle safes cost to install?**

- A Flexysafe Pro and Economy are fitted by users themselves in seconds – there's no installation cost and no special skills are needed.

### **Q Is there definitely a place to secure Flexysafe Pro or Fleet models into all car types?**

- A Yes, our fitting experts have an extensive photo library showing the best position for Flexysafe in hundreds of vehicles. We'll provide a photo for the vehicle in question.

### **Q The standard unit isn't quite what we need – do you make other models?**

- A We manufacture all our products in our own factory and we make special units for many of our customers. We can make the units bigger, with different locks, different configuration, alternative securing cables etc. Give us a call with your particular requirements. We'll produce a prompt quotation.
