# 1. Vehicle-based Laptop & Equipment safes

Tested to Destruction and Approved by the UK Police, Flexysafe vehicle-based safes provide a high level of security for people who transport their laptop computer, projector, important documents and other valuable equipment in their car.

## Flexysafe Pro

Fits into the vehicle without any bolting or damage to the car using a specially hardened chain which resists bolt croppers, wire cutters etc.

The award-winning design and unique aluminium armour plate construction combines lightness (8 kg) with incredible toughness. The Pro is available in Top Opening or Side Opening versions and in large or small sizes.

Contact us for a detailed product Data Sheet.

<b>Construction</b>	Welded aluminium armour plate/stainless hinge
<b>Lock</b>	7 lever lock mechanism
<b>Size</b>	Choice of sizes/configuration - contact us for Data Sheet
<b>Weight</b>	8 kg

## Flexysafe Fleet

The Flexysafe Fleet is a cost-effective steel version of the Flexysafe Pro

Contact us for a detailed product Data Sheet

<b>Construction</b>	Welded steel/stainless hinge
<b>Lock</b>	7 lever lock mechanism
<b>Standard size</b>	Contact us for a Data Sheet

## Flexysafe Utility

Flexysafe Utility offers the same high level of protection as the Pro and Fleet, but is bolted into position in the vehicle using special fasteners supplied. Designed primarily for use in vans, trucks and other commercial vehicles.

Contact us for a detailed product Data Sheet

<b>Construction</b>	Welded steel/stainless hinge
<b>Lock</b>	7 lever lock mechanism
<b>Standard size</b>	Internal (cm) 45 L x 13.5 D x 36.5 H Special sizes available to requirements

# Frequently Asked Questions about Flexysafe Vehicle Safes

**Q Why choose Flexysafe?**

A

1. Products are tested and approved by UK Police
2. Proven in use over several years by many major vehicle fleets
3. Manufactured precisely to your company's requirements
4. A complementary range of laptop safes for office and workstations

**Q Our vehicles are leased so we can't drill holes - can we still use Flexysafe?**

A Flexysafe Pro and Fleet models are specifically designed to secure into cars with absolutely no damage to the vehicle – using a UK Police approved method

**Q How much do Flexysafe vehicle safes cost to install?**

A No installation cost. Users themselves fit the safes in minutes with full support from our technical team if required. What's more, users can remove the safe from their vehicle and relocate it at any time into a building, their home or even another vehicle.

**Q Is there definitely a place to secure the safe in all our car types?**

A Yes, our technical department has an extensive photo library showing the best position for Flexysafe in vehicles – so we can usually email a photo for the vehicle in question.

**Q The sizes on the Data Sheet don't fit our requirements – do you make other models?**

A We manufacture the safes in our own factory and we make special sizes and configurations for many of our customers. Contact us with any special requirements and we'll provide a prompt quotation

## 2. Office-based secure laptop and media storage

### Powered Laptop Cabinet

Fully-powered cabinet to house up to 18 laptops with internal sockets for effortless charging with no exposed cables. The Powered Cabinet is fitted with an all steel roller shutter tambour door with an internal lock which can also be supplemented with a padlock if required.

The Powered laptop drawers can be substituted for other modules including a bin drawer for carry cases or filing, shelves, media storage modules etc.

We can also supply smaller, non-powered versions of this Cabinet.
